Yes (Specify _____) No

AREAS OF CRITICAL ENVIRONMENTAL CONCERN: Is the project in or adjacent to an Area of Critical Environmental Concern?

Yes (Specify _____) No

PROJECT DESCRIPTION: The project description should include (a) a description of the project site, (b) a description of both on-site and off-site alternatives and the impacts associated with each alternative, and (c) potential on-site and off-site mitigation measures for each alternative (*You may attach one additional page, if necessary.*)

The project proponents propose an environmental remediation of a pig manure dump and contaminated wetland located adjacent to the Sutton Brook Disposal Area. A total of 31,503 square feet of wetland impacts and 71,648 square feet of wetland replication are proposed. An Order of Conditions has been obtained from the Tewksbury Conservation Commission under the Wetlands Protection Act for the proposed work, and an application for a 401 Water Quality Permit has been submitted to the DEP. The Environmental Notification Form (ENF) is required as part of the 401 permitting process because more than 5,000 square feet of wetlands will be altered as a result of these remediation activities.
